Video Cover Letter with Infographics

When creating a video cover letter with infographics for your Kickstarter campaign:

1. Hook. Grab attention immediately: Start with a strong opening that piques the viewer's interest and makes them want to watch more. Use visuals: Infographics can be a great way to visually represent your ideas and make your video more engaging.
2. Introduction. Clearly state your purpose: Explain why you're creating this video cover letter and what you hope to achieve. Introduce yourself and your project: Briefly describe your background and the project you're promoting.
3. Showcase Your Experience. Use infographics to visually represent your qualifications. This could include a timeline of your career, a skills matrix, or a breakdown of your accomplishments. Highlight: Explain how your skills and experience align with the project you're promoting.
4. Explain Your Passion. Convey your enthusiasm for the project. Talk about what motivates you and why you're excited to work on it. Use storytelling: Share personal anecdotes or experiences that illustrate your passion for the project.
5. Call to Action. Clearly state what you want viewers to do. This could be backing your Kickstarter campaign, visiting your website, or following you on social media. End with a strong call to action: Leave viewers with a memorable message that encourages them to take the next step.

Creating a Video Sales Letter for Your Sociology-Based Game

A video sales letter can be a powerful tool to promote your sociology-based game and generate interest among potential players. Here are some key elements to consider:

1. Hook and Introduction

* Grab attention: Start with a strong hook that immediately piques the viewer's interest. This could be a compelling question, a surprising statistic, or a dramatic scene from the game.
* Introduce the game: Clearly explain the concept and theme of your sociology-based game. Highlight what makes it unique and engaging.

2. Gameplay Demonstration

* Show, don't tell: Demonstrate the core gameplay mechanics and how they relate to the sociological themes.
* Focus on key features: Highlight the most exciting and innovative aspects of your game.
* Keep it concise: Aim for a video length of 3 minutes to maintain viewer interest.

3. Explain the Sociological Themes

* Connect the game to real-world issues: Discuss how your game explores relevant sociological topics and themes.
* Highlight the educational value: Explain how players can learn sociology through gameplay.

4. Call to Action

* Encourage pre-orders or wishlist additions: Clearly state what you want viewers to do after watching the video.
* Provide a link to your Kickstarter or other funding platforms.

5. Production Quality

* Invest in good quality equipment: Use a decent camera and microphone to ensure your video looks and sounds professional.
* Edit effectively: Cut out unnecessary footage and ensure a smooth flow of the video.
* Add music and sound effects: Enhance the viewing experience with appropriate background music and sound effects.

Here are some examples of how you could incorporate sociological themes into your game:

* Explore the challenges faced by marginalized groups and the impact of systemic biases.
* Examine the relationships between different social groups and how power is distributed.
* Cultural differences: Explore how cultural diversity can shape human behavior and interactions.
* Social change: Address issues of social justice and the potential for positive change.

By creating a compelling video sales letter that highlights the sociological themes and engaging gameplay of your game, you can attract a wider audience and increase your chances of success.

AC (Acquisition Cost) - Marketing expenses. UA (Units Acquisition) - Number of acquired users. C1 (% Conversion rate) - Percentage of users who make a purchase. AOV (Average Order Value) - Average transaction amount. APC (Average Payments Count) - Average number of purchases per user. COGS (Cost of Good Sold) - Costs at the point of purchase. 1sCOGS (First Sale Cost of Good Sold) - Costs at the point of the first purchase fix. COGS (Fixed Sale Cost of Good Sold) - Fixed costs. CAC (Customer Acquisition Cost) - Cost of acquiring a user. CLTV (Customer Lifetime Value) - Gross profit per user. LTV (Lifetime Value) - Gross profit per scaling unit (the profit a company gets from one user over the entire period of their relationship with the business). PPPU (Profit Per Paying User) - Profit obtained from each paying user. ROMI (Return on Marketing Investment) - Profit obtained as a result of marketing investments. CM (Contribution Margin) - Marginal profit. EBITDA (Earnings Before Interest, Taxes, and Amortization) - Net profit.

Fill in your data for AC, UA, C1, AOV, APC, COGS, 1sCOGS, and fix COGS; the rest is calculated using formulas: CAC = AC / UA CLTV = (AOV - COGS) × APC - 1sCOGS LTV = CLTV × C1 PPPU = (CAC / C1) + (AOV - COGS) * APC ROMI = (LTV - CAC) / CAC x 100% CM = UA × (CLTV × C1 - LTC) EBITDA = UA * (C1 * (AOV - COGS) * APC - CAC) - (UA * C1 * 1sGOGS) - fix COGS.

* Hook: A captivating anecdote, question, or surprising statistic related to your game's theme.
* Game Overview: Briefly describe the game's genre, setting, and core mechanics.
* Unique Selling Point: Clearly articulate what sets your game apart from others.

Gameplay and Mechanics:

* Core: Explain the primary mechanics and how they contribute to the overall experience.
* Unique Features: Highlight any innovative or distinctive aspects of your game.
* Player Agency: Discuss how players can influence the story and outcomes.

Thematic Elements:

* Sociological Themes: Explain how your game addresses specific sociological issues or themes.
* Educational Value: Highlight the potential for players to learn about sociology through gameplay.
* Social Impact: Discuss any plans for social impact or charitable initiatives related to the game.

Development and Team:

* Team Experience: Briefly introduce the team members and their relevant skills.
* Development Process: Outline the development timeline and challenges faced.
* Future: Discuss your vision for the game's future, including potential expansions or sequels.

Call to Action:

* Encourage Media Coverage: Request interviews, reviews, or previews.
* Provide Contact Information: Share your email, website, and social media links.

Video Scenes

* Gameplay Footage: Showcase the most exciting and visually appealing moments of your game.
* Character Introductions: Introduce key characters and their motivations.
* Cutscenes: Highlight any cinematic sequences or story-driven moments.
* Behind-the-Scenes Footage: Offer a glimpse into the development process, such as interviews with the team or footage of the game being created.

Music and Memes

* Music: Choose music that complements the game's tone and atmosphere. Consider using original music or licensed tracks.
* Memes: Use relevant memes or pop culture references to add humor and relatability. However, ensure they align with the game's overall theme and tone.

Remember to keep the video concise and engaging, focusing on the most compelling aspects.

Spiral Dynamics is a theory that describes the evolution of human consciousness and culture through various stages or "memes." Each meme represents a different value system or worldview. Here's an attempt to classify:
AN (Beige): Survival and Basic Needs * Episode 1: Angel Beats!: The initial introduction to the afterlife and the concept of the Afterlife Battlefront (ABF) aligns with this stage, focusing on immediate survival and basic needs.
BO (Purple): Tribalism and Belonging * Episode 6: My Song: The episode explores themes of belonging, community, and shared experiences, which resonate with the Pu meme.
CP (Red): Power and Dominance * Episode 7: Silent Oath: This episode showcases the power struggles within the ABF, aligning with the Red meme's focus on dominance.
DQ (Blue): Order and Law * Episode 10: Eternal Summer: The episode delves into themes of order, stability, and the search for meaning, which are characteristic of the Blue meme.
ER (Orange): Achievement and Materialism * Episode 12: Crowning: This episode focuses on competition, achievement, and personal glory, aligning with the Orange meme.
FS (Green): Humanism and Community * Episode 13: Goodbye Days: The final episode explores themes of human connection, empathy, and the importance of relationships.

To use your example - people come from Yelp where they did well and then try and sell something that people don't know about and they fail big time because they don't have name brand to rely on. Say what you will about Yelp, but at least people have heard of it. It is a whole different ball game when you are calling from a company that no one has heard of, telling them about a problem they've never thought of and selling a solution they didn't know existed. Never underestimate the power of name recognition when selling something. Values with Graves's emergent cyclical levels of existence.

It's superior because it answers HOW this give THAT which give WHAT so you don't waste money on irrelevant network like I did before finishing it. This make me a more executive. Emphasis is what and SD is how. ER/BO + "3w2 or 2w3" = "Cheerleader, Bandwagon."

The Social Network is a classic example of a well-structured narrative.
Opening Image (Act I) * The Setup: The film begins with a scene of Mark Zuckerberg, a Harvard student, creating Facebook in his dorm room.
Theme Stated (Act I) * The Theme: The theme of the film is the power of social connection and its potential for both good and evil.
Set-Up (Act I) * The Characters: We are introduced to Mark Zuckerberg, Eduardo Saverin, and the Winklevoss twins. * The Conflict: The conflict arises when the Winklevoss twins accuse Zuckerberg of stealing their idea for a social network.
Catalyst (Act I) * The Catalyst: The catalyst is the lawsuit filed by the Winklevoss twins against Zuckerberg, which sets the plot in motion.
Debate (Act I) * The film explores the ethical and legal implications of Zucker's actions.
Break into Two (Act II) * The Break into Two: The story divides into two parallel storylines: Zuckerberg's ascent to power and the legal battle with the Winklevoss twins.
B-Story (Act II) * The B-Story: The B-story focuses on Zuckerberg's personal life and his relationships with his friends and family.
Midpoint (Act II) * The Midpoint: The midpoint occurs when Zuckerberg launches Facebook to the public and it becomes a massive success.
Bad Guys Close In (Act II) * The Bad Guys Close In: The Winklevoss twins intensify their legal efforts to claim ownership of Facebook.
All Is Lost (Act III) * All Is Lost: Zuckerberg faces a crisis when the Winklevoss twins almost succeed in shutting down Facebook.
